

Englishcool is an English Language Centre based on a long professional background and personal experience of its trainers.

Its central core is the communication, so the comprehension and the oral expression are the fundamental pillars of our teaching method.

Its new location allows us a major flexibility of timetables, with smaller groups or personalized individual classes according to the student's requirements.

The centre is open all the year round, so we can add to our offer a special support to achieve good academic results from primary to High School students.

If you are not able to come to our center, don't worry, Englishcool moves to your home or workplace under request.
